
Waiting for SINDEM

Discovering the beauty and power of Clinical
Neurophysiology in the study of Dementia

Live Webinar – November 17th, 2021
h 15.00 – 17.30

Program

Chairpersons: Prof. A.C. Bruni and Prof. A. Padovani

First session

❖ 15,00 Past, present and future of the
neurophysiology in dementia
Prof. P. M. Rossini

❖ 15,20 Theoretical basis on
Quantitative
EEG and EEG connectivity
Prof. C. Babiloni

❖ 15,40 Theoretical basis on
TMS/tCDS
Prof. G. Koch

❖ 16,00 Theoretical basis on ERP
Prof. M. Valeriani

16.20 Discussion

Second session

❖ 16.35 Applications of Quantitative
EEG and EEG connectivity
Prof. L. Bonanni

❖ 16.55 Applications of TMS/tCDS to
diagnose and study of
neurodegenerative diseases
Prof. A. Benussi

❖ 17.15 Applications of ERP to
diagnosis and study of
neurodegenerative diseases
Prof. M. de Tommaso

17.35 Discussion

Final remarks and take home message
Prof. P. M. Rossini
